

Brooklyn People's Assembly for Medicare for All

The U.S. health care system is utterly inhumane. It covers less, provides lower quality care, and costs more than any other developed nation's health care system. Meanwhile, insurance and drug companies continue to make record profits at our expense. It's time we move to make health care a right in this country, and pass Medicare for All.

Activists from all over the country are coming together during the August recess to hold People's Assemblies on Medicare for All, to demand our members of Congress cosponsor HR 1384, the Medicare for All Act of 2019.

Attend a People's Assembly in your Community to learn more about Medicare for All:

Thursday, Aug. 8th
 6:00PM - 8:30PM
 Brooklyn Masonic Temple
 317 Clermont Ave, Brooklyn, NY 11205
 (Subway: B, C, G)

Food and drinks will be provided. The space is wheelchair accessible. Childcare upon request.

For more info and to RSVP, contact katie@nyhcampaign.org

What is a People's Assembly?

It's a mass community meeting where you can learn how to best pressure your member of Congress to cosponsor Medicare for All. See other People's Assemblies on the national map: <https://medicare4all.org/actions>

HEALTH INSURERS PROFIT OFF DENYING OUR CARE

62%
of bankruptcies
are due to medical
debt.

70%
of those are people
WITH insurance.

**THE U.S. SPENDS
TWICE AS MUCH** as
other democracies
on "healthcare,"
**YET THE U.S. HAS
WORSE HEALTH
OUTCOMES:**

we die younger,
more of our babies
and mothers die
during birth...

Hi. I'm Mark Bertolini,
and I'm the CEO of
Aetna. In 2015 I
made **\$27.9 million**.
Thank you for paying
your insurance.

I'm Stephen Hemsley,
CEO of UnitedHealth. I
made **\$20 million** in
2015. Thanks!

And I'm Joe Swedish,
the CEO of Anthem.
Thanks for my
\$13.5 million in 2015!
We ♥ your money!

One in three patients
with insurance fail
to get the medical
attention needed
because of high
deductibles and
co-pays.

30%
of your health
insurance dollars
goes toward
administrative
bloat, CEO
millionaires and
marketing to
healthy people
(the sick aren't
profitable enough)
instead of actual
healthCARE.

2,000 Estimated number of
New Yorkers who die due
each year to lack of access to care.

WE NEED SINGLE-PAYER HEALTHCARE!

THE NY HEALTH ACT & MEDICARE FOR ALL MEAN HEALTH JUSTICE,
particularly for people of color, immigrants, LGBTQ people, people
with disabilities, and rural communities. It would cover all residents
from cradle to grave--rich & poor, documented & undocumented,
employed & unemployed, married & unmarried--ending an era in
which some people's lives literally matter less than others.
